Medit Link

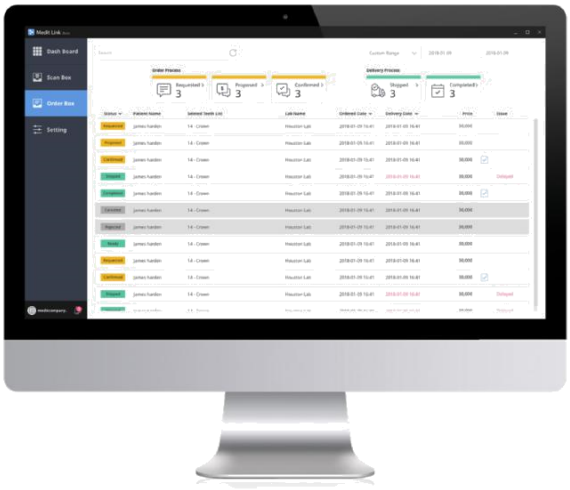

Medit's new workflow management and communication software, Medit Link, is developed to enhance your performance. Its integrated cloud storage and open data architecture ensure that your clinic's performance is optimized. However, everyday CAD processes with real-time workflow management and communication tools will also work.

Cloud Storage

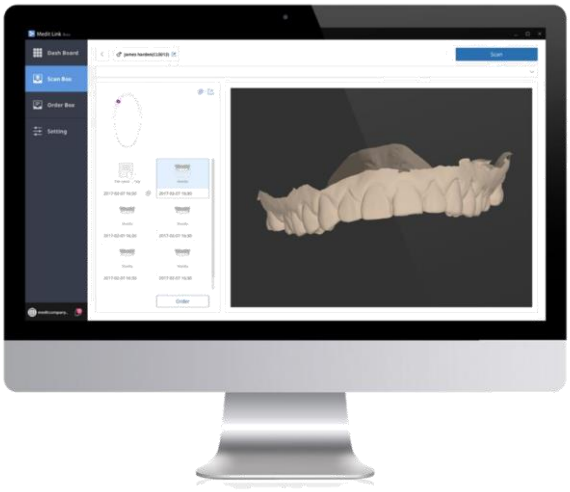

Medit Link is coupled with cloud storage for all digital scan files. Digital copies require less space than physical copies, and with our cloud system, you can easily archive your digital impressions and orders and manage cases wherever you are.

Easy Communication

Comin

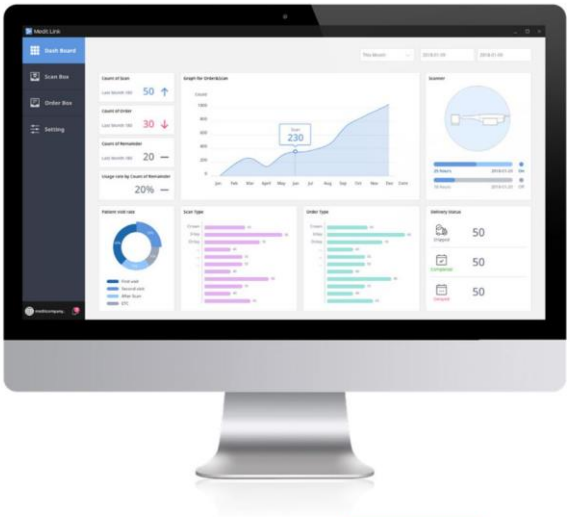

By integrating direct communication options, you can ask your customers questions quickly to ensure the highest-quality outcomes. This will not only increase the quality of your end-product, but will also save you money and improve your customers' satisfaction in the long run.

3D Viewer

After completing the scanning process in the i500 scan software, you can preview the final data via the 3D viewer in Medit Link.

Dashboard

Coming

Medit Link's user-friendly, effective dashboards allow access to a summarized form of all your data at a glance. Keep track of all your order information including relevant costs, scan types and patient visit rates, enabling you to manage your performance and communicate effectively with your partners easily.

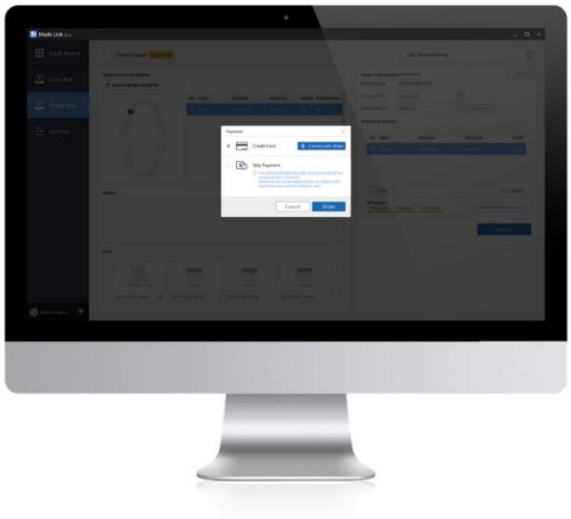

Workflow Management

Coming Soon

Medit Link allows tracking of workflows from order to delivery, and can even be linked to CAD/CAM software to improve work efficiency. Medit Link was created to help you manage your workflow in the easiest and most effective way possible, saving you valuable time.

Payment Management

With Medit Link's payment management system, you no longer need to worry about forgetting a payment. Let the system handle the administrative tasks so you can focus on being more productive.
